

WATTANA MAYSOOK

Computer Engineering

Contact

Phone
0948029433
Email
wattanamaysook@gmail.com
Location
Bangkok, Thailand

Education

Sripatum University
Bachelor of Engineering
Computer Engineering
2022 - Present

TECHNICAL SKILLS

Languages:
Python, C++, Java
Web:
HTML/CSS, JavaScript
Database:
MySQL
Hardware:
Arduino, ESP32

LANGUAGES

Thai — Native
English — Intermediate

Objective

Motivated Computer Engineering student seeking an internship in software development, web development, or backend systems to apply my programming, database, and problem-solving skills. Eager to learn new technologies, collaborate with development teams, and contribute to practical solutions.

Academic Projects

Laundry Official — Smart Laundry Payment System

Tech Stack: PHP, MySQL/MariaDB, HTML, CSS, JavaScript, jQuery, CURL, Prompt Pay API
-Developed a web-based laundry payment system with branch, machine size, and service duration selection
-Implemented payment verification using Prompt Pay QR, API, and webhook mechanisms; designed the database for machines, pricing, branches, and laundry sessions
Role: Backend & Database Development

Financial & Inventory Management System

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL/MariaDB
-Designed a web-based system for managing income, expenses, employee payments, and purchase orders
-Analyzed system requirements and designed Use Case and ER diagrams to define system functions and database relationships supporting financial tracking, payroll, and inventory management
Role: System Analysis & Database Design

IoT Sensor Monitoring System

Tech Stack: ESP32, C/C++ (Arduino), MQTT, Flask, SQLite/MariaDB, OLED
-Developed an IoT monitoring system using ESP32 and sensors to collect and transmit environmental data Implemented MQTT -communication and designed a database to store sensor information and readings for real-time monitoring
Role: IoT, Backend & Database Development

Activities & Training

Participated in an AWS AI Workshop, gaining introductory knowledge of Artificial Intelligence and AWS cloud technologies.
